

Forbidden Fruit 82%

Brand: EQ Wellness CBD

Product Code: Forbidden Fruit 82%

Price: \$0.00

Short Description

Forbidden Fruit 82%

Forbidden Fruit is a popular indica-dominant hybrid cannabis strain, known for its sweet, fruity flavor profile and relaxing, euphoric effects. It's a cross between Cherry Pie and Tangie strains.

While the Forbidden Fruit strain typically has a high THC content, often ranging between 20-25% or even higher, there's no readily available information suggesting a typical THC content of 82% for the flower itself.

However, cannabis concentrates or extracts made from Forbidden Fruit, such as vape cartridges, can have significantly higher THC percentages, potentially reaching 80-90%.

THC Content of 82%

Description

Forbidden Fruit 82%

Forbidden Fruit is a popular indica-dominant hybrid cannabis strain, known for its sweet, fruity flavor profile and relaxing, euphoric effects. It's a cross between Cherry Pie and Tangie strains.

While the Forbidden Fruit strain typically has a high THC content, often ranging between

20-25% or even higher, there's no readily available information suggesting a typical THC content of 82% for the flower itself.

However, cannabis concentrates or extracts made from Forbidden Fruit, such as vape cartridges, can have significantly higher THC percentages, potentially reaching 80-90%.

Here's a breakdown of the Forbidden Fruit strain:

- **Genetics:** Cherry Pie x Tangie
- **Type:** Indica-dominant hybrid (typically around 70% Indica, 30% Sativa)
- **Aroma:** Sweet, fruity (berries, citrus), with hints of earthy and tropical notes (mango, passionfruit). Some users may also detect pine or pepper undertones.
- **Flavor:** Sweet, fruity (cherry, citrus, mango, grapefruit), reflecting the aroma.
- **Typical THC Content (flower):** Usually ranges between 20% and 25%, sometimes higher.
- **Effects:** Users often report an initial wave of euphoria and uplifted mood, followed by deep relaxation and physical sedation. It can be described as providing a balanced experience.
- **Potential uses:** May help with stress, anxiety, pain, insomnia, and appetite loss.
- **Side effects:** Can include dry mouth, dry eyes, and couch-lock, especially with higher doses.
